About Me

MERN Stack Developer with 2+ years of experience engineering scalable, performance-focused web applications and backend systems using React.js, Next.js, Node.js, NestJS, and MongoDB. Builds REST APIs, admin dashboards, authentication systems, role-based access control, and database-driven applications. Strong focus on solving business problems through clean architecture, optimized APIs, efficient database queries, and maintainable full-stack solutions.

Education

M.Sc. Information Technology Atmiya University	2022–2024 CGPA: 9.0
Bachelor of Computer Applications (BCA) Saurashtra university	2019–2022

Work Experience

- **MERN Stack Developer**
Technocomet Solutions | 1.5 Years

- Developed and maintained scalable web applications using the MERN stack — MongoDB, Express.js, React.js, and Node.js.
 - Designed and implemented RESTful APIs using Node.js, Express.js, and NestJS, with proper validation, error handling, and authentication
 - Built responsive and reusable frontend components using React.js, Next.js, JavaScript, TypeScript, Tailwind CSS, and Bootstrap.
- **React.js & Next.js Developer**
Imbuesoft | 6 Months

- Developed modern, responsive, and user-friendly web applications using React.js and Next.js.
 - Built reusable and scalable React components to improve code maintainability and development efficiency.
 - Implemented forms, validations, tables, search, filtering, pagination, and interactive UI components based on project requirements.
- **React.js & Next.js (Intern)**
Imbuesoft | 6 Months

- Assisted in developing responsive web applications using React.js, JavaScript, HTML,CSS.
 - Created responsive layouts using Bootstrap, CSS, and modern responsive design techniques.

Skills

- **Languages** | JavaScript, TypeScript
- **Frontend** | React.js, Next.js, HTML5, CSS3, Bootstrap, Tailwind CSS, DaisyUI, Ant Design
- **Backend** | Node.js, Express.js, NestJS
- **Databases** | MongoDB, MySQL, SQL Server
- **Tools & Concept** | Redux, Redux Toolkit, JWT Authentication, Git, GitHub, Role-Based Access Control
- **AI Tools** | ChatGPT, Claude, GitHub Copilot, Google Gemini, Cursor, Antigravity

SELECTED PROJECTS

Asset Management CRM

MERN Stack

- Developed an enterprise-level Asset Management CRM for managing the complete asset lifecycle, including procurement, GRN, tagging, installation, allocation, maintenance, and disposal.
- Developed responsive and reusable frontend modules using Next.js, JavaScript, Tailwind.
- Built responsive UI, REST APIs, MongoDB aggregation, dynamic forms, filters, and dashboards

Miodeal Admin Dashboard

NestJS

- Developed a backend admin panel for an e-commerce platform to manage products, categories, sub-categories, brands, and product-related data.
- Implemented REST APIs, CRUD operations, authentication, user management, and role-based access control for secure administration.

Cash gig System

NodeJs, Express, MongoDB

- Developed backend REST APIs for a home and garden service platform, supporting services such as house cleaning, garden cleaning, maintenance, and other on-demand services.
- Implemented user, service, booking, and provider management APIs with CRUD operations, data validation, authentication, and business logic.
- Worked on API testing, debugging, error handling, and performance improvements.

Medi Pract

NextJS

- Developed a responsive doctor discovery and appointment booking platform using Next.js and React.js, enabling users to search and find doctors based on specialization, availability, and other relevant criteria.
- Built reusable UI components and dynamic pages based on project requirements..

Languages

- **Gujarati** | Excellent
- **Hindi** | Excellent
- **English** | Beginner

STRENGTHS

- **Problem Solving**
- **Team Collaboration**
- **Continuous Learning**
- **Adaptability**
